TRANSLATION NOTES FOR CHAPTER 18:

– Page 11 and 12: I used the (translated) Japanese lyrics for Schubert's lullaby, as provided by the manga, but the corresponding lyrics for those verses, in German and English, are as follow:

German		*English*	
Gut Nacht, gut Nacht, mein liebster Schatz...		Good night, good night, my lovely treasure	
Gut Nacht, schlaf wohl, mein Kind...		Good night, sleep well, my child...	
Es singt im Busch die Nachtigall...		A nightingale sings in a bush	
Im klaren Mondenschein...		In the clear light of the moon	
Der Mond scheint in das Fenster dir...		The moon shines on you from the window	
Guckt in dein Kämmerlein...		Peeps into your bedroom...	

– Page 22: "Don't worry" = "Daijoubu". Literally it should have been "it's alright", but I decided to take this liberty for the sake of better flow.

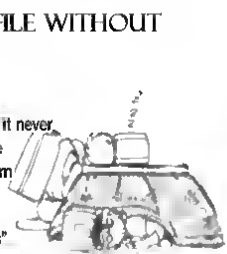
NOTES FOR CHAPTER 20:

– Whatever possessed me to edit 80% of the sound effects in this chapter, I hope it never comes back. But just in case, a question for readers - should I just transliterate the Japanese sounds, or find the nearest word in English? Should I keep on editing them (no promises) or just add an asterisk nearby with its pronounciation/meaning?



– Page 13. "Seireijutsu" (精霊術), translates as "spirit techniques" or "spirit arts" The latter would have been a nicer wording choice, but Clari mentions in a later chapter another technique that actually uses the furigana "Supiritto Aatsu", written as 精霊武闘 (seireibutou) and meaning, literally, Spirit [Martial] Arts.

NOTES FOR CHAPTER 22:

– This shouldn't need to be said, but Excalivast is an obvious reference to Excalibur.

– Page 23, Kancho. Joining both hands with indexes pointing forward like a gun, and then shoving the indexes up somebody's ass. It's more of a childish school prank than anything, though it's said to be – kinda painful. Referenced in one of the earliest Naruto chapters. (Why the sublime spirit of a holy sword would feel the need to do this to Shchel is anybody's guess.)

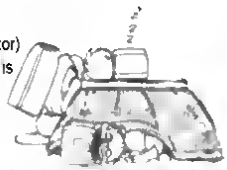
NOTES FOR CHAPTER 23:



– It concerns the series as a whole, rather than just this chapter, but I (the translator) have noticed that Great's name is usually romanized as **Grate** in japanese sites. This puts our current romanization in question, and brings up the question of which we should use from now on.

– Using Grate as his name would allow me to use the word "great" freely, without confusion and without feeling like I was making some sort of pun. It's also closer to the whole musical naming theme, since it at least relates to sound. On the other hand, I've been told that Grate has too strong a negative connotation to be used as a name, even if that was Watanabe's intention, and that Great is more aesthetically pleasing.

– I'm still undecided - I think both names have their pros and cons, and though I wouldn't really mind using the name Watanabe chose, I've also been using ***Great*** since the second chapter, and the fandom seems quite used to it by now.

– Any thoughts or preferences?

NOTES FOR CHAPTER 24:

– Page 9: Rafflesia is the stinkiest flower in the whole world, and its smell has been described in such flattering terms as like a 5-day-old corpse dunked in a sewer. It can be smelled from 50 meters away or something.

More on rafflesias: http://en.wikipedia.org/wiki/Rafflesia

– Page 12: Lute's bottle says "drunken demon king". Also, the flags on the food cart say "Yakitori", or "fried chicken". A drunken salaryman on a street cart crying his sorrows to the cook seems to be a normal sight in Japan.

NOTES FOR CHAPTER 25:

– Page 9: The kanji for "Cannonball" litteraly means Fireball. When Great repeats it in the last pannel, he only says the kanji, without the furigana - but I used the furigana pronunciation because I didn't want to go back and forth between Cannonball and Fireball.

SHCHELKUNCHIK PICTURE BOOK
SECOND: LUTE

Lute's magical Griffon
Because he also liked
animals in the
previous work

Whenever I think of him he's smiling. Since his fate was harsh in part 1 I want to make things much more fun for him this time around. He's a bit of a nosy older brother always looking out for Great and Shchel so I wanted to make him a supporting character for them.

Serious to the point of being downhearted and obviously possessing very powerful magic the mental image of Homel papa looking after him is a nice mistery to leave.

What did Clan think when this spitting image of his beloved and respected Prince Lute first came to the school? I have fun imagining him putting up a firm front, but going "Forgive me prince." inside all flustered up and confused. I want to draw lots of scenes in that line but well look forward to Lute's development!

When part 2 came to be Lute was the character I first thought of. I also really loved the Lute in part 1 he was a Hell Prince-like mysterious sort carrying around the living head of a disgusting old man

but in truth he was a person burdened with the joy and sorrow of being the magical Prince of Sfarzando and his honest character really suited him

Since he suffered that heart breaking fate how would it be if he were reborn as one of Flute's children inheriting their DNA and how would Flute mama raise him?

The staff of Part 1's Lute. It's a weapon specialized to release the spell "Justice" but this time around he just transfigures his arm. The crystal in the palm of his hand is an embedded fragment of the crystal in Part 1's staff.

He can play some magical music but not to Great's level. Lute is definitely a mage first and foremost!

what a pain!

Pirara admires him too

ah prince Lute!

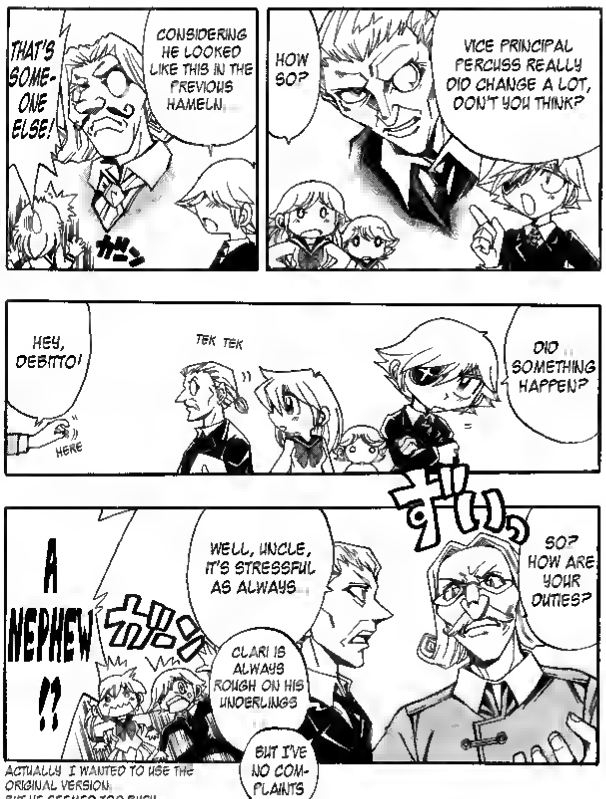
SFORZANDO'S SECRETS, PART 1

GAN
EH?
CONSIDERING HE'D AGED THIS MUCH ON THE LAST CHAPTER OF THE FREVIOUS HAMELN
EH-- NO WAY--
CHAIRMAN CLARI IS LOOKING WAY TOO PRETTY, IF YOU THINK ABOUT IT!
WAS IT... MAGIC?
BUT HOW DID HE REJUVENATE THAT MUCH?
I'M PRETTY SURE I WAS DEALING WITH AN IMPORTANT QUESTION JUST NOW, BUT...
WEIRD ...!?
I CAN'T REMEMBER WHAT IT WAS..?
EH? WHAT WAS I... THINKING ABOUT JUST NOW...!?
GASP !?

SFORZANDO'S SECRETS, PART 2



THAT'S SOME-ONE ELSE!
CONSIDERING HE LOOKED LIKE THIS IN THE FREVIOUS HAMELN
HOW SO?
VICE PRINCIPAL FERCUSS REALLY DID CHANGE A LOT, DON'T YOU THINK?
HEY, DEBITTO!
HERE
TEK TEK
DID SOMETHING HAPPEN?
A NEPHEW !?
WELL, UNCLE, IT'S STRESSFUL AS ALWAYS
CLARI IS ALWAYS ROUGH ON HIS UNDERLINGS
BUT I'VE NO COM-PLAINTS
SO? HOW ARE YOUR DUTIES?

ACTUALLY I WANTED TO USE THE ORIGINAL VERSION. BUT HE SEEMED TOO BUSY...

Who might they be
THERE WERE ALSO A COUPLE OF OTHER GIRL STUDENTS
MANY PEOPLE DROPPED OUT AFTER YOU TURNED INTO CHESTRA
Whoa!
WEREN'T THERE ALSO GUYS LIKE THIS?
What happened to them?
WE ALSO LOOKED LIKE THIS AT FIRST, YOU KNOW!
THERE ARE LOTS OF OTHER CLASSES, SO THEY MIGHT STILL SHOW UP—
Please look at this with an open mind.
THERE WERE ALSO THESE CHARACTERS DURING THE ENTRANCE EXAM with a board and stuff...

EVEN THOUGH
EH?
WAY TOO NORMAL
BUT OUR CLASS LOOKS
IT WAS FULL OF THESE TYPES WHEN WE FIRST WALKED IN
THOSE GUYS TURNED INTO THIS—?
They look puny
I DECIDED TO BLUFF AND LOOK SCARY
ME TOO!
SO I WOULDN'T GET COLD FEET
SINCE I'D JUST ENTERED THE SCHOOL
ER, THAT
